交大銘泰軟件實業有限公司*

(incorporated in the Cayman Islands with limited liability) (Stock Code: 8148)

THIRD QUARTERLY RESULTS ANNOUNCEMENT FOR THE NINE MONTHS ENDED 30 SEPTEMBER 2005

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the Internet website operated by the Stock Exchange. Listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website at www.hkgem.com in order to obtain up-to-date information on GEM-listed issuers.

The Stock Exchange takes no responsibility for the contents of this announcement, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the directors (the "Directors") of SJTU Sunway Software Industry Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief:- (1) the information contained in this announcement is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this announcement misleading; and (3) all opinions expressed in this announcement have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

Notes:

1. Basis of preparation

The Group's unaudited condensed consolidated financial statement has been prepared in accordance with the applicable disclosure requirements set out in Chapter 18 of the GEM Listing Rules and Hong Kong Accounting Standards ("HKAS") 34 "Interim Financing Reporting" issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

The condensed consolidated financial statement has been prepared under the historical cost convention. The accounting policies adopted are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2004 except as described below.

In the current period, the Group has applied, for the first time, the following new Hong Kong Financial Reporting Standards (HKFRSs), Hong Kong Accounting Standards (HKASs) and Interpretations (herein collectively referred to as "new HKFRSs") issued by the HKICPA that are effective for accounting periods beginning or after 1 January 2005.

The following new and revised HKFRSs adopted by the Group during the period have resulted in changes in the Group's accounting policies which will have effects on the results of the Group for the current or prior accounting period:

HKFRS 2 Share-based payment

The adoption of HKFRS 2 has resulted in a change in accounting policy for employee share options. Prior to the adoption, the provision of share options to employees did not result in a change to the income statement. Following the adoption of HKFRS 2, the fair value of share options at grant date was amortised over the subsequent relevant vesting period.

The amount charged to the income statement as a result of the change of policy amounts to HK\$1,831,500 for the nine months ended 30 September 2005 (2004: Nil), with the corresponding amounts credited to the share options reserve.

Details of the employee share option scheme can be found in the "Share Option Scheme" section in this announcement.

The adoption of other new HKFRSs does not result in substantial changes to the Group's accounting policies which will affect the results of the Group.

2. Turnover and segment information

The principal activity of the Group is the provision of information localisation services. Turnover represents the revenue from provision of information localisation services, custom-made solution contracts and the sales value of goods sold after allowances for goods returned, excludes value added or other sales taxes and is after the deduction of any trade discounts.

The amount of each significant category of revenue recognised in turnover is as follows:

	Nine months ended 30 September		Three months ended 30 September	
	2005	2004	2005	2004
	HK\$'000	HK\$'000	HK\$'000	HK\$'000

Custom-made solutions		5,204	-	321
Licensing fee	-	525	-	20
	3,005	11,124	1,299	2,155

3. Taxation

No provision has been made for Hong Kong Profits Tax as the Group did not earn income subject to Hong Kong Profits Tax during the period ended 30 September 2005 and the period ended 30 September 2004.

4. Dividends

No dividend has been paid or declared by the Company for the period ended 30 September 2005 (2004: Nil).

5. Loss per share

(a) Basic loss per share

The calculation of basic loss per share for the nine months and three months ended 30 September 2005 were based on the net loss of HK\$16,169,000 and HK\$4,829,000 respectively (2004: net loss of HK\$12,563,000 and HK\$10,097,000 respectively) over the weighted average number of ordinary shares in issue of 200,000,000 for the nine months and three months ended 30 September 2005 (2004: 200,000,000).

(b) Diluted loss per share

There were no potential dilutive ordinary shares in existence during the period ended 30 September 2005 and the period ended 30 September 2004.

MANAGEMENT DISCUSSION AND ANALYSIS

Overall Review

For the nine months ended 30 September 2005, the Group recorded a turnover of HK\$3,005,000, as compared with HK\$11,125,000 for the same period in 2004. Loss attributable to equity holders of the parent was approximately HK\$16,169,000 as compared with HK\$12,563,000 for the corresponding period in 2004.

The enlargement of the loss attributable to equity holders of the parent was the result of the Group's business restructuring strategy as the management has put emphasis on the relatively higher margin business, information localisation. However, the business was still stagnant during the period as the market is highly competitive and the internal resources are limited for further expansion. As a result, the overall turnover drops drastically and the management has identified various investment opportunities to improve the cash flow position of the Group. Also, the management has put stringent measures to reduce the operating costs and looks for potential strategic partners in forming strategic alliance to alleviate and improve the current status of the Group.

Financial Resource and Liquidity

As at 30 September 2005, the Group had bank balances and cash of approximately HK\$749,000 and a short term bank loan of approximately HK\$13,679,000. The borrowings are repayable within one year and interest bearing at prevailing market rates.

Gearing Ratio

As at 30 September 2005, the total asset value of the Group was approximately HK\$64,174,000 whereas the total liabilities was approximately HK\$30,301,000. The gearing ratio of the Group, calculated as total liabilities over total assets, was 47.2% (31 December 2004: 32.3%). The Directors are of the view that the Group maintained a healthy gearing ratio.

Foreign Exchange Exposure

Since most of the income and expenses as well as assets and liabilities of the Group are denominated in Renminbi, the Directors consider the Group has no material foreign exchange exposure.

Acquisition, Disposal and Significant Investment

The Group has no significant investments during the review period.

Pledge of Assets and Contingent Liabilities

As at 30 September 2005, the Group did not have any substantial pledge of assets and contingent liabilities.

Business Review

During the review period, the Group is principally engaged in the information localisation business, including the provision of translation services using the translation software developed by the Group to various industries in the People's Republic of China ("PRC"), such as automobile, information technology, energy, machinery and construction. Compared with the corresponding period last year, for the reason that the severe market competition and the drop of the orders from our significant customers, the translation works handled by the Group decreased significantly. During the course of business transformation, the Group focuses on providing professional translation services to customers of larger scale. However, these customers usually adopt tendering procedure for new orders with great emphasis on pricing, therefore the main obstacle we are facing before the establishment of our comprehensive core-operating platform is how to lower our costs, which undermined our business development pace and performance. During the year, the Group had been identifying other business sectors with a view to improve our performance, and acquired 100% equity interests in New Champion International Ltd this June. The optical disc jukebox business of its PRC associated company can be applied to various sectors requiring large data storage, which has enormous potential in the Chinese market. The management believes that, in the near future, the optical disc jukebox and its related technology developed by the associated company will be widely used in the PRC market.

Prospects

With its expertise and resources in information localisation business accumulated over the years, the Group will further implement the strategic deployment of information localisation solutions. With its outstanding translation professionals and customer base, coupled with its strength in technology research and development, the Group expects to attain further development in information localisation business with better results.

In addition, the Group is proactively identifying opportunities beyond the information localisation business to enhance operational performance, strengthen business foundation and improve service quality. We look forward to achieving more satisfactory returns for our investors and shareholders.

Other Shareholders

The Company has not been notified of other interests or short positions of any other person (other than the Directors and chief executive and the substantial shareholders of the Company) in the Shares or underlying Shares of the Company as recorded in the register required to be kept under Section 336 of the SFO as at 30 September 2005.

SHARE OPTION SCHEME

The Company operates a share option scheme (the "Scheme") which was adopted on 25 November 2003 whereby the Directors may at their discretion invite any employees, directors, suppliers, customers, advisers, consultants, joint venture partners and any shareholders of any members of the Group or any invested entities or any holders of any securities issued by any member of the Group or any invested entities, to take up options to subscribe for Shares. The Scheme became effective upon the listing of the Company's shares on the GEM of the Stock Exchange on 9 January 2004. On 17 January 2005, options entitling the holders thereof to subscribe for an aggregate of 7,500,000 shares were granted to Directors, employees, technical consultants, initial management shareholders and a substantial shareholder of the Company. The fair value of options granted on 17 January 2005 is determined to be HK\$0.2442 at the grant date. On 10 October 2005, 12,800,000 share options were granted to Directors, employees and consultants of the Company.

The valuation was based on a Binomial Model with the following data and assumptions:

Share Price at the Grant Date on HK\$0.445 17 January 2005 **Exercise Price** HK\$0.45 Expected Volatility 75% per annum **Option Life** 10 years Expected Dividend Yield 0% per annum Risk-free Interest Rate 2.89% per annum Early Exercise Assumption Option holders will exercise when the share price is at least 325% of the exercise price

The volatility rate of the share price of the Company was determined with reference to the movement of selected comparators' share prices during the period from November 1999 to July 2005. Taking into account the probability of leaving employment and early exercise behavior stated above, the expected life of the grant of options was estimated to be 5.24 years. The risk-free interest rate is taken to be the linearly interpolated yield using Hong Kong Exchange Fund Notes as at 17 January 2005. The movement of the share options during the period ended 30 September 2005 are as follows:

Date of grant	Exercise period	Exercise price per share (HK\$)	Granted	r of options Outstanding at 30 September 2005
Directors				
17 January 2005	17 January 2005 to 16 January 2015	0.45	4,020,000	4,020,000
Employees				
17 January 2005	17 January 2005 to 16 January 2015	0.45	3,480,000	3,480,000
